The star (*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abderhalden Reaction, simplified and quantitative	486
Abortion, experimental, in cow, produced by inoculation with human strain of <i>Brucella melitensis</i>	972
infectious, use of rabbits in study of....	141
Acidosis, ketosis in rat.....	323
studies of; colorimetric determination of pH of urine.....	479
Acrocephalosyndactylism	618
Acrodynia, so-called; pathologic study of 2 necropsy cases	*64
Adenoma of endometrial origin in laparotomy scars following incision of pregnant uterus	641
pituitary	832
pituitary, roentgen-ray treatment of....	639
Adenomyoma, ectopic, relationship to ovarian function	831
in groin or of round ligament; inguinal endometrioses	960
of abdominal wall	641
uteri	831
Adipocere	296
Agalactia, contagious, microorganism of... ..	825
Age in living adults, objective determination of	295
Agglutination, autohemagglutination in chronic leukemia	636
test, macroscopic, rapid method for....	671
Agglutinins, action of alkaloids on formation of.....	149
effect of manganese on.....	289
Albuminuria and hydrogen ion concentration in blood and urine.....	612
nature of urinary protein	453
of experimental nephritis, source of protein in	453
production by renal vaso-constriction in animals and in man.....	608
Alcoholic Cirrhosis, fat replacement of glycogen in liver as cause of death....	*84
progressive	814
Alcoholism, sadiastic erotic murder.....	477
Allergy, primary lesions and miliary tuberculosis	465
Alrutz, L. F. Thrombopenic purpura.....	*356
Amato Bodies, nature and significance of. .	283
Amebic infection of urinary tract and amebic cystitis	973
Amniotic adhesion and spina bifida.....	619
Amyloidosis and Hodgkin's disease.....	132
experimental study of	444
produced by injections of proteins..*25,	838
Anaphylaxis, bacterial, in rabbit, blood sugar changes in.....	123
cellular	977, 977
cellular, active, in dogs.....	150
cellular, passive, in dogs.....	830
echinococcus	290
heterogeneous passive	830
neutralization of anaphylatoxin by arspenamine	474
pathogenesis of anaphylactic shock and of other processes akin to.....	976
quantitative changes in blood sugar and blood lactic acid in	828
relation of atopic hypersensitiveness (hayfever, asthma) to	*96, 256
relation of thyroid gland to.....	307
reversed, and carotal complex of symptoms in their relation to China-ink....	473
reversed, passive, caused by antibody in animals sensitized by antigen.....	306
specific inflammatory reactions accompanying immunity	632
test, direct, absorption of undigested protein from alimentary tract as determined by	122
with bacterial exotoxin.....	829
Anemia, acute febrile pleichromic, with hyaline thrombosis of terminal arterioles and capillaries	268
aplastic and pseudo-aplastic.....	617
diameter of red blood cells in differentiation of	478
Gaucher's disease	269
Gaucher's disease and lipoid histiocytosis	163, 442
peculiar case of splenomegaly with....	654
pernicious, analysis of fecal flora in 33 cases of	278
pernicious, atypical case of.....	632
pernicious, blood-phenol values in....	968
pernicious, constitutional factor in....	266
pernicious, experimental, attempts to produce by means of <i>Monilia pilosus</i>	303
pernicious, method for rapid diagnosis of. .	156
plethoric, serologic reactions associated with	123
Anencephaly, endocrine organs in.....	271
Anesthesia, ethyl urethane, effect on acid-base equilibrium and cell contents of blood	621
post-anesthetic hypoglycaemia; etiology of recurrent vomiting	440
Aneurysm and anomaly of circle of Willis.	163, *213
cardiac infarct and coronary sclerosis... ..	962
of ascending aorta communicating with pulmonary artery	*562
Angina Pectoris, neurological mechanism of, and its relation to surgical therapy. .	810
Angiomas, malignant, with reference to sarcoma due to roentgen ray.....	*899

sugar, and carcinoma	646, 967
sugar, and pulmonary tuberculosis.....	454
sugar changes in fatal bacterial anaphylaxis in rabbit.....	123
sugar content, cerebrospinal fluid and..	820
sugar curve, in head injuries.....	122
sugar, determination, new titrimetric principle for	836
sugar, fasting level and tolerance in menstruation	610
sugar, hyperglycemia; physical and chemical studies in diabetes mellitus.....	957
sugar, in the normal and diabetic.....	809
sugar, maximal hypoglycemia without use of insulin	611
sugar, micro-Folin-Wu method of quantitative estimation	156
sugar, microtest for	647
sugar, post-anesthetic hypoglycaemia; etiology of recurrent vomiting.....	440
sugar, rapid alterations in level of, in rabbits as result of intravenous injections of killed bacteria of various types.	123
sugar, relation of hyperglycemia to volume, chlorine concentration and chlorine distribution	124
sugar, relationship of enteritidis-paratyphoid B infections to hyperglycemia in rabbits	627
sugar time curves following ingestion of dihydroxyacetone	610
surface tension of plasma, relation of thyroid gland to.....	958, 958
transfusion, death following.....	266
transfusion, hemostatic effect of.....	265
ultraviolet absorption spectra of, in relation to infectious diseases and cancer.	832

influence of iron on growth upon glycerinated beef broth	461	serodiagnosis, complement-fixation and inhibitive tests; results obtained by repeated tests in clinical normals, tuberculosis contacts, and 1,000 cases..... 630	
influence of temperature on transformation of paratuberculosis bacilli into.. 464		serodiagnosis, complement fixation in. 828, 974	
method for transferring from solid to liquid culture media	824	serodiagnosis, fixation reaction applied to, in domestic carnivorous animals..... 146	
new method for concentration of, in tuberculous milk	650	serodiagnosis, Matefy's seroreaction for determination of activity of tuberculous process	145
new method for suspending and counting. 670		surgical, prognostic value of urochromogen reaction in.....	634
polymorphism of; mycelium-like and branched forms	283	what are the relations between exudative and proliferative tuberculosis?.....	817
question of influence of radiant energy on growth of, in vitro.....	465	Tumor: See also Cancer; Sarcoma; and under names of tumors	
resistance of specific properties of, to sodium hydroxide and hydrochloric acid	274	action of roentgen rays on lecithin content of	645
serology of bovine type of.....	460		
specific precipitating substance from.... 281			
viability of, in semi-arid environment.... 628			
Tuberculin, conditions necessary to arouse allergic state in tuberculosis and immunity through fixation of bacteria. 288			
reaction, specificity of; and its histologic character	284		
standardization of	459		
Tuberculosis: See also Arthritis; Lymph Nodes; Osteomyelitis			
antigenic property of tuberculous organs; complement fixation	637

Tumor—Continued	PAGE	Urine—Continued	PAGE
and bacilli	645	alkaptonuria, influence of protein injections on metabolism of.....	959
argentaffine, of appendix and small intestine	292	changes in composition after muscular exercise	620
bone formation in, of hypophyseal stalk.....	833	diastase, variations in relation to meals..	265
carbohydrate metabolism of.....	643	excretion of specific substances of tubercle bacilli in.....	274
comparative pathology of.....	985	glomerular, of frogs, concentration of chlorides in	452
fatty, of uterus	815	hydrogen ion concentration in, and albuminuria	612
islet adenoma, cystadenoma and metastatic sarcoma of pancreas.....	133	hydrogen ion concentration, colorimetric determination of	479
lymphoid cell; tumor of small intestine with special reference to.....	641	lactic acid elimination in carcinosis....	454
no immunity produced by inoculating irradiated tumor tissue.....	642	manganese in; its detection and determination	*585
of blood-lymph-vascular system with special reference to endotheliomas.....	830	nitrituria	137
of lateral aberrant thyroids.....	151	secretion, effects of calcium and potassium ions on	811
pathologic anatomy of primary tumors of heart	978	sugar: See also Glycosuria	
registry of, of lymphatic system.....	808	sugar, more specific reagent for determination of	479
reticulum in	292	sugar, rate of elimination of, in phlorhizin diabetes	609
rhythmic structure of human tissues....	963	urobilin, liver function tests.....	651
tar, autoplasmic implantation of tar tumors as compared to their histologic picture.....	832	urobilin, significance of quantitative determination in diagnosis of cirrhosis hepatis	651
tar, in rabbits	833	Urobilin physiology and pathology, relation between urobilin and conditions involving increased red cell destruction.....	434
transplantation and potential immortality of mammalian tissues	318	physiology and pathology; urobilin and damaged liver	263
transplantation, effect of operative interference with cervical sympathetic nervous system upon growth and malignancy of transplantable neoplasm of rabbit	977	Urochromogen Reaction, prognostic value in surgical tuberculosis.....	634
transplantation, growth and persistence of filterable viruses in transplantable rabbit neoplasm	978	Uterus, adenomyosis	831
transplantation, homologous, effect of injection of irradiated sarcoma cells on growth of	642	arteries, changes in, following pregnancy.....	133
unusual malignant, of liver.....	*365	cancer, information by sections in series during irradiation treatment of.....	450
Twins, blood grouping in.....	472	chorionepithelioma of	476
Typhoid bacillus, peculiar forms of infection caused by	630	endometrioma and uterine dysembryoplasia	450
bacillus, simple modification of brilliant green method of isolating, from feces..	669	endometriosis of female genitalia.....	132
bacillus, use of glycerol in brilliant green bile for isolation of, from feces.....	670	fatty tumors of	815
infections of kidney	825	intra-uterine injection of acid-fast bacilli into guinea-pig	969
vaccine, standardization of.....	471	simultaneous occurrence of carcinoma and tuberculosis	*542
Typhus, atypical Weil-Felix reaction.....	970	Vaccination, uses of bunion pads as shields after	258
etiology	972	Vaccines, bacterial, detoxication by formaldehyde	974
Ultraviolet Light, parathyroid glands of rabbits irradiated with.....	319	lysozyme-dissolved, antigenic properties of	148
effect on circulation	811	sensitized and raw pneumococcal, comparison of antigenic properties of....	472
Undulant Fever: See Malta Fever		Vaccinia virus in vitro; affinity for nerve tissue	622
Urea, microchemical detection in tissues..	455	virus, studies of	631
quantitative estimation of minute amounts of	648	Van den Bergh Reaction, clinical value of.....	296, 650
Uremia and renal insufficiency.....	137	mechanism and value in classification of icterus	157
clinical differentiation of spontaneous intracerebral hemorrhage and.....	609	Varicella: See Chickenpox	
Ureter, bilateral hydronephrosis on basis of atony of	269	Varicose Veins, pathologic histology of....	271
primary congenital dilatation of.....	961	Variola: See Smallpox	
Uric Acid, isolation from blood of a hitherto unknown substance, and its bearing on present methods for the estimation of.....	452	Veins, hepatic, result of mechanical obstruction of	485
new titrimetric principle and its application to determination of.....	836	renal, persistence of glomerular circulation of kidney following occlusion of.....	305
Urinary Tract, amebic infection of.....	973	Vena Cava, superior, occlusion of; and carcinoma of thymus.....	*569
unusual manifestations of spread by implantation of papillomata of.....	963		
Urine, alkaline, etiology of incrustated cystitis with	288
